Suggested information and tables to include in the annual Research Performance Progress Report (RPPR), applicable to awards made under the following NOFOs
- **R24 NRR PAR-19-301, PAR-22-065, PAR-25-xxx**

Items (1) and (3) should be reported or uploaded in a pdf to G.1 of the RPPR:
(1) Several (3 to 4) science highlights that were enabled by the resource.
(2) Challenges and solutions. These should be described in RPPR Section F.2
(3) For resources based on instruments, information as suggested in Table 1A. For resources handling biological samples or reagents, refer to suggested Table 1B. For resources handling data, software, and computer modeling, refer to suggested Table 1C. All resources, refer to suggested Tables 2 and 3.

Table 1A, 1B, 1C: Report on resource usage (choose at least one)

Table 1A:

Number of				Resource Usage (in hours)		
External users	Internal users	Requests for instrument time	Experiments or studies	Total (including sample prep and set up)	Instrument time by external users	Instrument time by internal users

Table 1B:

Number of users	Number of samples or reagents			
	Deposited to the resource	Requested	Disseminated by the resource	Maintained in the resource

Table 1C:

Number of				
Users	Data processes/analyses by the resource	Downloads	Uploads	Website visits

Table 2: Report on user affiliations

Number of users from			List of user institution states/countries
Research institutions	Undergraduate-focused institutions	Other organizations (such as companies)	

Table 3: Report on Trainee Affiliations

Number of trainees					List of states/countries of trainee institutions
On-site (or consultations)	On-site (or consultation)	From research institutions	From undergraduate-focused institutions	From other organizations (such as companies)
